## N.B.C. PLANS SHOW ON HITLER'S LIFE

'The Twisted Cross' on TV  
March 14 to Trace Rise and  
Fall of German Dictator

By J. P. SHANLEY

Adolph Hitler's rise and fall will be the theme of "The Twisted Cross," to be presented over the National Broadcasting Company television network on March 14 from 9 to 10 P. M.

Henry Salomon will produce the program, consisting partly of German news film that has been impounded until recently. Mr. Salomon also produced "Victory at Sea," "Nightmare in Red" and "Three, Two, One—Zero" for the N. B. C. network.

Although "The Twisted Cross" deals with Hitler's career from his early days in the slums of Vienna until the end of his life and his reign as head of the Nazi movement, it also will show other leaders of the party at work. Among them are Goering, Himmler, Frank, Goebbels and Roehm.

One of the incidents depicted in the program will be the attempt to kill Hitler with a bomb on July 20, 1944. The event will be seen in a filmed reconstruction made by Germans after World War II.
